- Unit 20 get through(2), hold up(2), run out of, break into, burn down, wear out(2)

Reference section

Introduction

Making Sense of Phrasal Verbs presents a selection of the most useful ar frequently used phrasal verbs in the English language. It avoids the use o grammatical classifications because such classifications are often more complicated and difficult than the phrasal verbs they are used to teach. Instead, the aim is to increase the learner's confidence by presenting phrverbs in a lively and straightforward way using illustrations and questionprompts.

Making Sense of Phrasal Verbs can be used for self-study, for pairwork, fo conventional class or group teaching, and as a reference book. It is intenc for intermediate students of English as a second or foreign language. Students studying for the First Certificate Examination will find the book especially useful.

The book contains twenty units, each of which introduces and practises s separate phrasal verbs. At the back of the book there is a reference sectio which the phrasal verbs are listed in alphabetical order.

Illustrations and question-prompts

Each phrasal verb is introduced using illustrations and question-prompts The question-prompts are designed to focus the learner's attention and hhim or her make an informed guess at the meaning of the phrasal verb. Th guess is expected to take the form of a paraphrase or synonym. The learne not expected to produce a dictionary-type definition.

Reference section

The reference section contains an alphabetical listing of all the phrasal ve presented in the book. Each entry includes:

- a list of words and phrases that can be used with the phrasal verb
- a clear definition
- a context sentence or sentences related to the introductory illustrations
- easy to read structural information showing the positioning of noun phrases and pronouns

Practice section

Each unit has a practice section consisting of a variety of exercises. The exercises are very controlled to begin with and then gradually lead to free-production. All six phrasal verbs in the unit should be studied first before t practice section is done.

A NOTE ON PHRASAL VERBS

A phrasal verb is a compound verb formed by one of the following combinations: (1) verb and adverb; or (2) verb and preposition; or (3) verb with both adverb and preposition. Phrasal verbs are an essential part of the English language – especially the spoken language. Simple combinations like *sit down* and *stand up* cause the learner few problems. The difficulties begin when the combination is 'idiomatic': that is, when the meaning of the combination as a whole (i.e. the phrasal verb) is different from the meanings of its separate parts. The learner may, for example, know the meaning of the verb *break* and the meaning of the adverb *down*, but this knowledge will not help him or her to understand the different meanings of the phrasal verb *break down*. All the phrasal verbs in this book are idiomatic, and each different meaning is treated as a separate phrasal verb.

find out

Where is the man? What do you think he wants to do? Do you think he knows which platform to go to?

Who is he talking to? Before he can catch his train he has to do something.

Make a sentence describing what he is doing. Think of another way of saying **find out**. Now turn to page 89 to check your answer.

to excuse (someone) from (a punishment, a duty, or doing something).

Bill should have been sent to prison for six months, but the judge decided to let him off so that he could stay out of prison and take care of his family.

The judge let Bill off going to prison. The judge let him off the punishment. The judge let Bill off.

let out

to allow (a person or an animal) to leave (a place); to release.

They let Fred out of prison after five years.

They let Fred out of prison. They let Fred out. They let him out.

look after someone or something

to take care of someone or something.

Looking after a baby is a full-time job. You have to bath it, dress it and feed it.

She looks after the baby. She looks after it.

look back

to remember and think about the past.

The Blacks have been married for many years. They like talking about the past and looking back on old times. At the moment they are looking at pictures of their wedding.

They enjoy looking back at old times.

on to

They enjoy looking back on them. They enjoy looking back.

look down on someone or something

to think that someone (or something) is inferior, low or worthless; to disapprove of (someone or something).

Sir Douglas is a very rich aristocrat. Fred is a very poor tramp. Sir Douglas thinks that he is a much better person than Fred - he looks down on Fred.

Sir Douglas looks down on Fred. Sir Douglas looks down on him.

look for something or someone

to try to find (something or someone), often a thing or person that is lost.

Fred wanted to open his front door but he couldn't find his key. He looked for it everywhere. 'It's in one of my pockets,' he thought.

He looked for his key. He looked for it.

look forward to a future event

to think with pleasure about a future event that you expect to enjoy.

Bill Bloggs has been in prison for the last ten years. Next year he'll be released from prison and he'll be a free man. Bill is looking forward to next year.

Bill is looking forward to next year. Bill is looking forward to it. Bill is looking forward to leaving prison.

look into a situation / a crime / a problem / a complaint etc.

to investigate; to carefully examine a situation or event and try to discover the reasons for it.

The police are looking into the death of Mr James. They want to know how he was murdered. They are looking at the evidence and asking lots of questions. They want to find the murderer.

The police are looking into the murder of Mr James. The police are looking into it.

look over some work/a car/a house/a document/a suggestion / an applicant etc.

to examine (someone or something) carefully and fully.

Joe wanted to buy a second-hand car. 'That one looks good,' he said to the salesman. 'Give me some time to look it over. If it's in good condition, I'll buy it.'

He looked the car over. He looked over the car. He looked it over.

look round a house / a shop / a town / a factory / an exhibition etc.

to visit and tour round a place.

Mr and Mrs Smith wanted to buy a house. The estate agent took them to see a house in the centre of town and said, 'Look round the house and see if it's what you want.'

They looked round the house. They looked round it. They went into the house and looked round.

look up a word / a telephone number / an address / a train time / a date etc.

to find (or try to find) something (e.g. a telephone number) in a book (e.g. a telephone directory).

While Peter was reading he found a word that he didn't understand, 'This is a difficult word,' he thought. 'I'll look it up in the dictionary and see what it means.'

He looked up the word. He looked the word up. He looked it up.

look up to someone

to respect (someone); to admire (someone).

Young Jimmy's favourite footballer is Ted Ross of Arsenal, Jimmy looks up to Ted and he tries to be like him.

Jimmy looks up to Ted Ross. Jimmy looks up to him.

often used in the negative with can't and make out(1) couldn't

to see, hear, or understand (something or someone). often with difficulty.

Bob saw something on the horizon as he was looking through his binoculars. At first he couldn't make out what it was, but after a few minutes he could just make out the shape of a vacht.

He couldn't make out the thing on the horizon. He couldn't make the thing out. He couldn't make it out.

Acquiring an understanding of phrasal verbs - so essential for a fluent command of spoken English - can be a tedious business. Not so with this book! Making Sense of Phrasal Verbs presents

some of the most common verbs through lively cartoon illustrations and guides learners to an understanding of their meanings with carefully worded cue questions. A series of exercises offers first controlled and then freer practice of the newly-learned verbs, while the Reference Section at the back of the book, with its meaning check, context sentences and collocations, helps to make this a clear, lively introduction to the subject.
